

Cider Bar List

This year we are showcasing over 40 Kent Ciders and Perries, including some local producers who have not been seen at this festival before. While endeavouring to bring you a great selection of ciders that meet CAMRA's definition of Real Cider, look for the unpasteurised ones. We have picked out some less well known ciders from across the country and a few quirky ones just for fun.

C=Cider P=Perry
